7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

Based on personnel levels necessary to have caseloads that meet the standards critical for implementing system changes with the DCF CPI transformation plan. Broward is facing a significant Flakka epidemic and caseloads are higher due to increased removals. 84% of CPIs have caseloads that range from 30 to 40 open cases. This increase in funding would bring caseloads down to 15-18 cases per CPI. A CPI funding increase to the BSO Grant would directly impact our capacity to achieve the DCF goals on program enhancements, empowering front-line staff, enabling family accountability and engaging communities

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)

9. Is this a multi-year project requiring funding from the state for more than one year?

Yes
