7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

This funding will help to restore the William Weech American Legion Post 168 in Key West, Florida. This building is a historic resource and landmark with great significance to the African-American community. It was constructed after World War II, at a time when segregation was rampant and its members were not allowed to join the all white American Legion post, so the members formed their own post and constructed this facility. The building is currently listed on the National Register of Historic Places. In addition to its ties to the African-American community, the building's Art Deco stylistic detailing is relatively uncommon in Key West and represents an architectural style worthy of preservation. The funding will be used to install code compliant plumbing and electrical systems (\$66,000), construct ADA compliant restroom and ramp (\$40,000), and install a mechanical air conditioning system (\$48,000). With these tasks completed, it will be possible to re-open the facility for use by the American Legion and the community. Future project phases will provide a fully restored building, returned to its historic configuration dating back to the early 1950s.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

Federal: 0

State: 0 (Excluding the requested Total Amount in #4d, Column G)

Local: 200,000

Other: 6,500

9. Is this a multi-year project requiring funding from the state for more than one year?

No
