7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

Terry Street Bicycle & Pedestrian Improvements: This project is for the design and construction of bicycle and pedestrian improvements along Terry Street. Specific project components include the construction of dedicated bike lanes, a sidewalk along the south side of the roadway from Bonita Springs Middle School to Old US 41, and a pedestrian bridge across Rosemary Creek. The project will significantly improve bicycle & pedestrian connectivity along the Terry Street corridor, which connect two of the primary arterial north-south roadways in the City: US 41 and Imperial Parkway. A large number of Bonita Springs elementary students live just east of Terry Street's intersection with Old US 41 and use the corridor year round to access not only the middle school, but the City's Recreation Center, Skate Park, Little League fields and Library which are all situated adjacent to the middle school. Additionally, the intersection of Old US 41 and Terry Street is the northern gateway to the City's historic downtown, which currently is undergoing an \$18 million renovation to spur economic growth and revitalization. In Summary, this project will make what has been historically an inherently unsafe, heavily used, pedestrian and vehicular corridor a safe and functional amenity to the community.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 1,514,700
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

No
