7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The funding request for the USF St. Petersburg Center for Innovative Teaching and Learning (CITL) is for a total of \$500,000 in recurring funds for operating expenses. Recurring funding of \$260,413 was appropriated for the Center in 2015-16. It is not anticipated that any further appropriations will be requested in the years beyond 2016-17 if the requested additional recurring funds of \$500,000 are appropriated in 2016-17. USF St. Petersburg's Vision 20/20 Strategic Plan and the 2015 Work Plan include two important goals: 1) Student Success and Culture, and 2) Faculty Excellence in Teaching and Research. Central to achieving these goals is providing the best instructional experience for students. This new initiative will create a Center for Innovative Teaching and Learning (CITL), which will be committed to the advancement of teaching and learning at USFSP. The CITL will be a resource for the academic community by offering a wide array of research-based programs and services that support teaching and reflective practice. The CITL will train instructors on new digital technologies and innovative instructional practices that focus on student learning, developing critical thinking skills and designing outcome assessments to measure success.
